PREFACE.

Last year we presented to the citizens of Cambridge and Roxbury an Almanac and Business Directory, for their respective cities—but owing to the circumstance of a Directory having been published for Cambridge, Charlestown and Chelsea, it was deemed best the present year to discontinue the Business Directory and Almanac for each city, and prepare a work embracing the

ENVIRONS OF BOSTON,

Thus furnishing a key to the business, and the civil, religious and benevolent institutions of the cities of Cambridge, Charlestown and Roxbury, and the towns of Brighton, Brookline, Chelsea, Dorchester and Somerville—embracing in the aggregate a population of about

SEVENTY-FIVE THOUSAND Inhabitants.

The proximity of these towns to Boston, together with the facilities for communication afforded by Railroads and Omnibuses, have rendered these localities important not only for residences but business and manufacturing purposes—in fact, the towns adjoining Boston are rapidly increasing in population, wealth and business, and will at no distant day outnumber in population the metropolis. The rapid growth of these places seems to demand an annual collection of facts and statistics in reference to their business and progress. We have this year commenced the work, with the design of continuing it yearly. The collection and arrangement of the matter for such an annual will necessarily be more imperfect for the *first* than for subsequent numbers, and we therefore ask the indulgence of our readers, should they discover any errors or omissions. All such defects we shall endeavor to remedy in future numbers—having now overcome the main difficulty. We have been exceedingly encouraged and materially assisted in our labors in the several towns by individuals who have manifested a lively interest in the work, and who have promised to enrich the next number with some highly interesting facts about the different cities and towns. Indeed we do not hesitate to promise much for the future publications, as we have discovered abundant materials to render such a work all that can be wished. During the present year, we shall carefully collect the matter, and will be happy to receive the aid of correspondents.

OFFICE IN BOSTON FOR THIS WORK

IS AT THE

BOSTON DIRECTORY OFFICE,

No. 95½ Washington Street, (up Stairs.)

Any communication or suggestion from persons friendly to the work will be thankfully received by the author; and any errors or omissions which may be discovered either in the book or the Map accompanying it, will be carefully corrected in the next number.

ECLIPSES.

This year there will be four Eclipses of the Sun, and two of the Moon.

I. Of the Sun. March 5th; at Boston the eclipse will be visible for a short time as follows:

Eclipse begins,	7h. 48m.	End of eclipse,	8h. 15m.
Middle of eclipse,	8h. 2m.	Duration, 27 minutes.	

2. A *total* eclipse of the Moon, March 19th, partly visible,

Beginning,	2h. 32m. P. M	Total eclipse ends,	5h 19m. P. M.
Total immer.	3h. 37m. "	Moon rises,	6h. 21m. "
Middle,	4h. 28m. "	Eclipse ends,	6h. 24m. "

As the Moon rises only a few minutes before the end of the eclipse, it will not probably be noticed by the naked eye at all.

3. Of the Sun, April 3d—invisible at this place.

4. A *partial* eclipse of the Sun, August 28th—invisible at this place.

5. A *total* eclipse of the Moon, September 12th and 13th—visible.

Eclipse begins,	11h 47m,	P. M.,	Sept.	12th.
Total eclipse begins,	0h. 46m.,	A. M.,	Sept.	13th.
Middle of the eclipse,	1h. 35m.,	"	"	"
Total eclipse ends,	2h. 24m.,	"	"	"
Eclipse ends,	3h. 23m.,	"	"	"

6 A *partial* eclipse of the Sun, September 27th—invisible at this place.

Adams's Boston Directory, for 1848-9,

GREATLY IMPROVED IN REGARD TO ACCURACY AND COMPLETENESS.

WILL BE PUBLISHED JULY 1, 1848.

The difficulties which attended the publication of the two former numbers of this work, having been in a great measure overcome, the subscriber feels no hesitation in promising a Directory for 1848–9, which will give general satisfaction.

☞ Experienced hands have been engaged, and valuable aid is expected from Mr. Stimpson, the publisher of the former Boston Directory; besides which, the Proprietor has had such experience in this difficult work as will enable him to redeem his promise.

The Directory will be sold at the *lowest possible price*, in order to ensure its general circulation, and *one price* will be rigidly adhered to. Responsible Agents will be employed to distribute it, and in no case will they be permitted to deviate from the fixed price.

Besides other important improvements, it will contain a large map of Boston, including all the streets on the Neck, with East and South Boston, Charlestown, and parts of Roxbury and Cambridge.

The subscriber returns his sincere thanks to the citizens of Boston and vicinity, for the liberal patronage extended to the New Directory; and he pledges himself to spare no pains or expense to render the future numbers of the work creditable to the city of Boston, and worthy of continued and generous support.

GEORGE ADAMS. 95½ Washington st. (up stairs.)

Aug. 18th, 1807. Fulton's steam. successful. 23d, 1822, Herschel died. 24th, 1572, Massacre of St. Bartholomew.

Massachusetts is bounded by R. I. 68 miles, Conn. 87 miles, N. Y. 50 miles, Vt. 42 miles, N. H. 87 miles, with 250 miles of sea-coast.

The first Meeting-House of Dorchester was built in 1631, and was situated near the corner of Pleasant and Myrtle streets, on "Allen's Plain," at the north part of the town. It was one story, of about twelve feet in height. As the best houses of the colonists were constructed of logs, and thatched, it may be fairly inferred that their house of worship was of the same material. It was surrounded by palisadoes; was the depository of military stores, and a place of resort in case of alarm from the Indians. A sentinel was kept at the gate every night; and thither the people carried their plate and most valuable articles every evening to be preserved in safety. On Nov. 3, 1634, an order was passed "to build stairs on the outside, and the loft to be laid, and a window in the loft."

John Bunyan, (*born* 1628, *died* 1688.)—John Bunyan was one of the most wonderful men of his age. His name is familiar to almost every child. He was the son of a tinker, and was born at Elstow, England. He was early addicted to profanity, but finally became religious and was admitted as a member of a Baptist congregation. He became a preacher, and after pursuing this calling a while was imprisoned for religious opinions twelve and a half years. While in prison, Bunyan prepared several works. Among them was that singular allegorical production, entitled "The Pilgrim's Progress from this World to that which is to Come." This has acquired the most extensive celebrity. Its popularity is almost unrivalled.

According to the latest returns, the woodlands of Massachusetts cover 729,792 acres.

Keep Moving.—Don't stand there, young man, with your fingers in your mouth, moping over your bad luck, but remember that you cannot recommend yourself to the notice of those who need your labor by wearing a downcast look. Kick up a dust and you may be something yet. If you are disposed to work, you cannot long remain idle. Be not too particular. If you can't get high wages, take the best offer you can get. If nobody will hire you, shove off into the country, work for your board and go to school through the Fall and Winter, and when Spring comes, may be you will be prepared to cut a figure in the world. By all means keep moving.

Land belonging to Massachusetts in Maine, Jan. 1847—was 2,420,014 acres. Much of it valuable. Why go West?

To Sleep Warm.—An English publication which aims at utility' says that two sheets of imperial cap brown paper, pasted at the edge to form one, and at a cost less than 3d., if laid over a bed with one blanket under, will produce more warmth than three ordinary blankets, or over a single coverlet will be warmer than one blanket only, and will last, with a little care, the whole winter.

The Use of Lime.—The value of Dr. Liebig's great discovery of dissolving bones in sulphuric acid for the purposes of manure, has been clearly established by experiments of various kinds. Crops of wheat, turnips, clover, &c. &c., have been increased by its use from 50 to 100 per cent.

A cow will give more milk when kept warm, than when exposed to cold. Cows eat more in severely cold weather and give less milk.

"The winter of 1740 was very hard, beyond what has been known this 40 years; It began early & was very cold, attended with great Quantities of Snow. The Sea was very much Frozen, & there was abundance of travelling upon ye Ice. There was great Travelling from Boston to Castle-William, and a Beaten Road in ye Snow kept open, whereon in ye way stood two Tents for Entertainment: and Horses & Slays as well as foot Folks were Continually passing. And Sled-Loads of Hay came near Straight up from Spectacle Island. The Snow lay long, & made ye Spring backward; I saw some drifts of Snow upon ye Islands, not quite Consumed, the 2d or 3d Day of May following."—*Blake's Annals.*

Charlestown Female Seminary.

This Institution was incorporated in March, 1333; the design of it was to furnish facilities for a complete Female Education, Moral, Intellectual and Physical, and its patronage, always having been liberal, the Trustees have been enabled to carry out their plan to the full extent of their wishes, by furnishing all necessary apparatus, and a large Board of accomplished Teachers. They have, likewise, a commodious Boarding House, containing over fifty rooms, and capable of accommodating 90 scholars; every room is occupied, and many applicants are unable to gain admittance. Ladies are at present in attendance to the number, in all, of 160, from most of the different States in the Union, and from the British Provinces. The Teachers are selected from different religious denominations, and sectarian views are not, of course, inculcated.

Trustees.—William Phillips, *President;* Benjamin Badger, *Vice President;* Albert J. Bellows, *Secretary and Treasurer;* Daniel White, James Fosdick, Nathan Merrill.

Teachers.—Miss Martha Whiting, *Governess and Teacher of Moral and Intellectual Philosophy;* Miss Catharine Badger, *Latin;* Mons. Lanza, *French and Italian;* Miss Mary H. Vacations.—The academical year is divided into two terms and two vacations. The 1st Term will commence on the Friday next succeeding Commencement, and continue twenty weeks. The 1st vacation will commence at the end of 1st Term, January 14th, 1848, and continue six weeks. The 2d Term commences at end of 1st Vacation, February 25th, 1848, and continues twenty weeks. The 2d vacation will commence at end of 2d Term, July 14th, and continue until Friday after Commencement.

The stated time for Examination of the Freshman Class is on the Monday and Tuesday of Commencement week.

The Public Exhibitions are on the 3d Tuesday of October, the 1st Tuesday of May and the last Wednesday of the 2d Term, July 12th.

Commencement, Wednesday, 23d of August.

Expenses.

The necessary expenses of an undergraduate for a year, included in the College bills, are as follows :—

Instruction, Library, Lecture-rooms		$75.00
Rent and Care of Room		15.00
Board for 40 weeks, at $2.25 per week		90.00
Or Board for 40 weeks, at $1.75 per week	$70.00	
Text-books (average)		12.00
Special Repairs, &c.		from 1 to 2.00
		$174 or $194.00

Other expenses must vary with the economy of each student. Wood and coal ready for use are delivered at the students' rooms, by the lessee of the College wharf, at the market price, usually at $6.50 per cord for wood, and $7 per ton for coal. The rent of rooms in private houses, from $30 to $60 per annum. Board in the town, from $2.25 to $3.50. The students find their own beds and furniture.

NEWSPAPERS.

THE ROXBURY GAZETTE, *Whig.* Terms, $2 per annum, in advance : if delayed six months, $2,25 : if delayed one year, $2,50. Office, over the Central Market, and nearly opposite Guild's Building, Washington street. Edward L. Keyes, *Editor and Proprietor.* John Cox, *Printer.*

CAMBRIDGE CHRONICLE. Published every Thursday, at the corner of Main and Magazine streets, Cambridgeport, by John Ford. $2 per annum.

THE CITIES AND TOWNS

In the vicinity of Boston are justly celebrated for the beauty of their scenery, and for the cultivated taste exhibited in the public buildings and private dwellings. Cottages beautifully situated, and ornamented with trees and shrubbery, line the roads. Some of these cottages are built with much plainness, yet costly and durable; others are antique, and some even grotesque in their appearance—but, taken as a whole, the private dwellings of the citizens of towns which environ Boston, cannot be surpassed in the United States. This, together with good roads, and delightful scenery constantly presented to view, render a drive through these places one of the very best.

DORCHESTER.

The town of Dorchester lies next to Boston, on the south. It was settled in 1630, by a company who came over in the ship Mary & John, Capt. Squeb. They located in the north part of the town, on the east side, near the sea. Quite a number of them, and some of the most wealthy, lived in what is now called Savin Hill avenue, and on the south side of Savin Hill. (Savin Hill was formerly called Fox Point, but about twenty-five years since it took its preseut name). The town formerly contained what is now Milton, Stoughton, Canton, Sharon, a part of Foxborough, and South Boston. A large number of the early settlers of New England first came to Dorchester, and remained there awhile before settling in other places. Many of its early settlers were men of distinction, some of whom removed to Boston a few years after its settlement.

The town is bounded on the south and east by Old Harbor, Dorchester bay and Neponset river. The town has derived much advantage from its great water power. The first water mill in the United States was erected on this river, by Col. Israel Stoughton. Many of the descendants of the early settlers live in the town, and a number of them own the land allotted to their ancestors. The town, considered as a whole, is healthy ; and its inhabitants obtain a good living, and are above want, the Alms house containing but about eighteen persons.

For beauty of scenery this town is equal to any in the United States. The first high land you come to in the north part of the town is Jones's Hill, which derived its name from one of the early settlers of the place. It is about three miles from Boston, one mile in circumference, and very easy of access. Here you have a view of cities, villages, country towns, woods, rivers, bays, islands, and the ocean,. For variety and beauty, nothing can surpass it. There is also a very fine view from Savin Hill, which borders on Dorchester bay ; also from Mt. Bowdoin, and Pope's Hill, so called, on the way to Quincy.

The Old Burying Ground,

Which is situated in the north part of the town, is an object of great interest and curiosity, especially to the antiquarian. Here are the remains of many of those inestimable men and pilgrims who " had their smiles and their tears, their raptures and their sorrows, but not for the things of this world ;" and gathered round them a great company of their descendants. In it are some of the oldest inscriptions in the United States, except a few in Jamestown, Va. One of 1638, which is the oldest date, has been renewed, but there is an original one of the dates of 1644 and 1648.

Harrison Square,

Situated at Commercial Point, has been laid out and built upon within a few years. This is a quiet and desirable location, and is

fast growing up to be a smart village. The cars pass through this place many times during the day and evening.

Tenean Grove

Adjoins Harrison Square, and is much visited in summer by parties who seem to appreciate its beauty, and its fitness for pic nics.

Neponset Village,

Near the mouth of Neponset river, is becoming an important part of Dorchester, in regard to business. The Old Colony Railroad and the Milton Railroad have a depot here. Land is rising in value. wharves and buildings are going up, and many circumstances combine to show that this place is destined to experience great prosperity.

ROXBURY

Is truly one of the most delightful places in New England. Much of the surface of this city is elevated and beautifully varied. The soil is under a high state of cultivation. Boston market is furnished with many choice vegetables, fruits, plants and flowers, from the gardens and farms in this city. The part of Roxbury which joins Boston is thickly settled, and presents a city-like and business appearance. Manufactories flourish at this place more than at any other near the metropolis. The enterprise of its citizens has called into requisition the aid of steam, and this power is used here extensively. This city offers many facilities for manufacturing business. It is healthy, and conveniently located to Boston, and for a few years past has received large accessions to its wealth and population. One does not hazard much to prophesy for it much prosperity —at any rate, it deserves it.

The steady and constant increase of its inhabitants requires annually the erection of many buildings, which are making serious encroachments upon the beautiful gardens which abound in the place. In Roxbury are many splendid seats, not only at the eastern section, but adjacent to Jamaica Pond, (a beautiful sheet of water four miles from Boston.)

We have in preparation some interesting facts in reference to this city, which we could not get ready in season for this year, but they will appear in our next number.

BROOKLINE

Joins Roxbury, and like it is distinguished for its beautiful scenery, and splendid private dwellings, some of which are located in

Linden Place,

A delightful spot—much admired by all who have a taste for the beautiful. A Railroad is now building to connect this town with Boston, which, when completed, will tend materially to build up this already growing place. From this town, we pass to

BRIGHTON.

This town is well known for its Cattle Market, and on market days is thronged with people, some of whom come from distant parts of the country. Most of the land here is excellent, and generally well cultivated. Winship's Gardens are noted for their fruit trees, shrubbery, plants and flowers. Warren's Garden also attracts much attention. Vessels of several hundred tons burden navigate Charles river to Brighton.

CAMBRIDGE.

The city comprises Old Cambridge, Cambridgeport, and East Cambridge. It was early settled, and incorporated in 1630. It formerly contained a much larger territory than at the present time. It is a place of considerable business, and rapidly increasing in population. The Car Manufactory of Messrs. Davenport & Bridges is the largest in the country. They are now enlarging their works by the addition of a Foundry and Forge.

The city is ornamented with some elegant specimens of architectural taste—and is distinguished as having the oldest and best endowed College in the United States.

Mount Auburn.

The Boston Almanac, of this year, gives many interesting particulars respecting this hallowed spot, which it would be profitable for all to peruse.

SOMERVILLE.

This town was incorporated in 1842, and is pleasantly located for dwellings. A considerable part of it is elevated above the surrounding country. Winter, Prospect, Central, and Spring Hills, afford some of the most commanding views, and are fast becoming the residences of Boston business men. Three Railroad lines pass through this town, and afford good facilities for communication with the city. Distance from Boston about three miles. Its population and business is increasing at a rate, which if continued a few years, will make this an important place.

The McLean Asylum for the Insane

Is located here. Luther V. Bell, M.D., *Physician and Superintendent.* Chauncy Booth, M.D., *Physician and Apothecary.* Columbus Tyler, *Steward.*, Mrs. M. E. Tyler, *Matron.* Homer Goodhue, *Supervisor of Male Wing.* Relief R. Barber, *Supervisor of Female Wing.*

CHARLESTOWN

Originally included Malden, Woburn, Stoneham, Burlington, and Somerville, a large part of Medford, and a small part of West Cambridge and Reading; making an extensive township in former

times—but it has been so liberal in parting with its territory, that at the present time it is one of the smallest towns in the State, its extreme length being about 1½ miles by half a mile in breadth. This town was settled as early as 1628, and named in honor of Charles the First, of England, and is noted for its sacrifices in the cause of liberty during the revolution, in 1775. Charlestown has rapidly advanced in business and population within the last ten years. The City government was organized in 1847.

Manufactories flourish to some extent here. Besides other important manufactories, the Cabinet ware business is carried on extensively. Great numbers of Sofas are made here, and are celebrated for their durability and beauty. Messrs. Forster, Lawrence & Co., on Main street, are largely engaged in their manufacture, and employ quite a number of persons. The well known "Charlestown Stone Ware," is made on Austin street, and near Chelsea bridge. The near location of Charlestown to Boston renders it a convenient place of residence for people engaged in business in the latter city. There are many beautiful residences on Bunker and Breed's Hill. The view from Bunker Hill is very fine.

Bunker Hill Monument

Is an object of pride to the American, and interest to the stranger, and is visited by many since its completion. Some fifteen to twenty thousand persons visit it annually; and its average yearly receipts for admission fee (12½ cents), will amount to about $2,000. The proceeds are expended in improvements upon the ground, &c. The keeper of the monument is Mr. John B. Goodnow, who is not only courteous to his numerous visiters, but ready to answer the various questions proposed to him, thus imparting valuable information respecting the monument, the battle, and the different objects of interest seen from this point. The prospect from the summit of this monument is exceedingly fine.

The site of the monument is sixty-two feet above the level of the sea. The monument is of hewn granite, thirty feet square at the base, fifteen feet square at the top, and two hundred and twenty feet in height.

The Ice Trade

Was commenced here, in 1805, and is now carried on by its founder, Frederic Tudor, Esq., and by Messrs. Gage, Hittenger & Co., J. W. Fabens & Co., and Mr. J. Hill. Immense quantities are shipped from this port. The ice is conveyed over the Fitchburg and Fresh Pond railroads to the wharves. The first cargo of ice was shipped from Gray's wharf, in this city.

The Fitchburg Railroad terminates in this city, on land adjoining the Warren bridge.

Navy Yard.

The United States Navy Yard is situated in this city, on the north side of Charles River, on a point of land east from the centre

of the city, extending along the harbor from the mouth of Charles to the mouth of Mystic River.

The Yard contains, within the wall, about one hundred acres. Within a few years many improvements have been made, and its general appearance is neat.

Navy Yard, Charlestown.—Foxhall A. Parker, *Captain Commanding.* Josiah Tatnall, *Commander.* A. H. Foote, *first Lieut.* John A. Winslow, *second Lieut.* Wm. Johnson, *Surgeon.* Addison Searle, *Chaplain.* F. W. Moore, *Master.* Joseph Lewis, *Boatswain.* Joseph F. Boyd, *Sail Maker.*

Civil Department.—S. M. Pook, *Naval Constructor.* Seth J. Thomas, *Naval Store Keeper.* Benjamin Hawkes, *Clerk of Yard.* A. R. Bogardus, R. La Roy Parker, *Clerks to Commander.* Philip Peckham, *Porter.*

Marine Corps.—Samuel E. Watson, *Col.* Ward Marston, *Capt.*

The State Prison

Is located in Charlestown, on a point of land near the bridge leading to East Cambridge. We have collected some statistics and facts respecting this institution, which we shall prepare for the next number of this work.

Massachusetts State Prison. *Board of Inspectors.*—Bradford Sumner, Samuel Greele, Abraham F. Howe. Frederick Robinson, *Warden.* Ebenezer Payne, *Deputy Warden.* Jared Curtis, *Chaplain.* Jonathan W. Bemis, *Physician.* Henry K. Frothingham, *Clerk.* Daniel Russell, *Superintendent of Stone Department.*

CHELSEA.

The village, in 1830, contained scarcely a dozen houses; since which time a flourishing town has arisen, containing some 5,000 inhabitants. It was originally known by the Indian name of Winnissimmet—afterwards called Rumney Marsh—but again received its Indian name when the settlement at the Ferry sprang into existence. The Chelsea ferry is the oldest in the United States, and was granted to Thomas Williams, in 1631.

Manufactories are springing up in this town, and it is becoming quite a business place. Two small papers are published here—the "Chronicle," by Mr. A. Bowen, and the "Winnissimmet Pioneer," by Mr. Rivers.

The United States Marine Hospital, and the Naval Hospital, in this town, are on a large plot of ground in a delightful and airy situation, and afford a comfortable retreat for sick and disabled seamen.

The surface of the town is broken into several beautiful eminences, presenting some of the finest views. Powder Horn Hill (two hundred and twenty feet in height), Mount Bellingham, and Hospital Hill, are the principal elevations. Point Shirley forms the northern part of Boston harbor, and is a fashionable resort in summer.

THE

New England Historic, Genealogical Society.

There has been commenced under the patronage of this Institution a work, entitled the **New England Historical & Genealogical Register, and Antiquarian Journal.** Although this work is extensively patronized by the most enlightened and literary portion of the public, yet it is still desirable to extend its circulation, as well with a view to benefit the community at large, as to enable the Society to accomplish its design of preserving the early Records of New England. That these Records are fast going to decay, is a fact too well known to require even ordinary proof. To preserve them, is a duty every one owes to his country. This journal is mainly intended for that object. It therefore has a claim upon you for support. It is not only the great aim of the Society to collect and preserve all such materials as will aid every one having a desire to trace his ancestry, or to establish any facts in the History and Antiquities of his country, to pursue such inquiries with the best prospect of success, but to make its labors available by a periodical publication; such as is now offered for your patronage.

CONDITIONS. The work is published by SAMUEL G. DRAKE, Corresponding Secretary of the New England Historic, Genealogical Society, 56 Cornhill, Boston, to whom all communications should be addressed. To be issued Quarterly, viz. in January, April, July, and October of each year — At TWO DOLLARS a year, payable, in all cases, in advance.

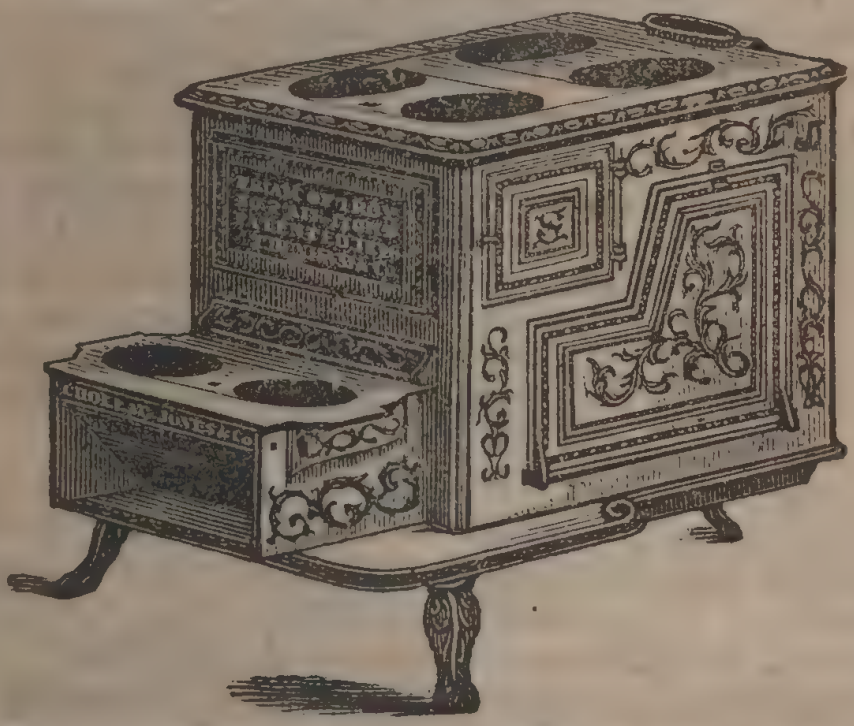
Stoves, Furnaces & Ranges

OF THE MOST APPROVED PATTERNS NOW IN USE.

Among which may be found the **celebrated Cooking Stove** ——called the——

"PRIAM OF TROY"



Air-Tight Cooking Stove,

So well known to so many thousand families, who now have them in use, as being the stove that bakes and boils so large an amount so perfectly with so small an amount of fuel. It has a very large oven, which is heated quickly, and perfectly even, by means of deep hollow grooves in the bottom and back of the Oven, exposing from three to four hundred square inches surface more than can be done by a plain surface; consequently rendering it one of the best baking Ovens that can be found. These Stoves are warranted to give perfect satisfaction, or to be returned and money refunded within 30 days.

Also, a large and well-selected assortment of Cheap **Cooking, Office and Parlor Stoves,** together with a variety of the most approved COOKING-RANGES and HOT AIR FURNACES, of all sizes. Personal attention given in setting them.

For Sale, Wholesale and Retail, at the

Stove, Range, and Hot-Air Furnace Establishment,

Abdominal Supporters.

Chapin's Improved, and Bartlett's Improved Supporters,

Are an efficient relief for most of those weaknesses of the body which require support—such as weakness of the lungs, palpitation of the heart, shortness of breath, dull pains in the side, sense of sinking or dragging at the pit of the stomach, like weights at the lower part of the body, falling of the womb, "bearing down pains," pain and weakness in the back, numbness and weakness of the limbs, all of which are aggravated on standing or walking, dyspepsia, costiveness and piles, nervousness and gloom, and a disposition of the body to stoop. A shoulder brace in connection is often necessary. Also, public Speakers complaining of Bronchitis, find special benefit from an Abdominal Supporter.

The Supporter relieves simply in gently lifting the abdomen, by pressing upwards and backwards, taking off that sense of weight at the lower body. This supports the weakened muscles, and elevates the organs resting on and attached to them, affording surprising relief; it permits a more free circulation of the blood, and thus invigorates the whole system.

Persons ordering them will send their measure taken around two inches below the hip bone, and they will be supplied with the above superior Instruments at prices from $2,50 to $5, by

A. F. BARTLETT,

No. 221 Washington St., (up stairs,)
